PROJECT PROPOSALS CONTEST

COMPOSITION OF THE CONTEST INTERNATIONAL JURY

25.04.2023

RESCUU

Lyudmyla Babak,

Uppsala University,
project coordinator at the Baltic
University Programme Coordinating
Secretariat

My name is Lyudmyla Babak and I am a project coordinator at the Baltic University Programme Coordinating Secretariat, which is a part of Uppsala University, in Sweden. After graduating with a MA in Euroculture from Uppsala University I have been employed here since then. The work with the Baltic University Programme (www.balticuniv.uu.se), which is one of the largest university networks worldwide, demands strong levels of overall contact with the programme's universities on different levels. Therefore, communication and management are key daily activities for me. Project management is another responsibility that I work with. Throughout my time at the BUP, I have prepared a number of project applications which have been successfully granted funds at a national Swedish level as well as several international projects which I have coordinated..

PUT Professor, Ph.D., D.Sc.

**Hanna WŁODARKIEWICZ-
KLIMEK**

Habilitated doctor of economic sciences in the field of management sciences, professor at Poznan University of Technology. Dean of the Faculty of Engineering Management and Chairman of the Council of the Discipline of Management Science and Quality at Poznan University of Technology. For more than twenty years she has been the head of the postgraduate studies in business management, production and logistics management as well as project and business process management. She conducts research and projects in the areas of changes in the state and structure of human capital in the economy of the future, as well as in the sphere of new management concepts in enterprises with a particular focus on agility. She cooperates with numerous research centres in Poland and abroad, enterprises and regional government. She is a member of the Committee on Organization and Management Sciences of the Polish Academy of Sciences and the Main Scientific Council of TNOiK.

RESCUU

RESCUU

Annina Kainu

Åbo Akademi University, Turku,
Finland, магістр економіки
(економіка)

I have studied economics and international law, and have minors in environmental studies and development studies. I teach sustainability-related courses in economics, social studies, and pedagogics. I have an interest in futures studies and systems dynamics.

My research interests are macroeconomic transitions and stability, and sustainable economic systems.

I have experience in training and facilitation for leadership development, especially value-based leadership, and leadership for resilience..

Evan Goss

Project administrator
Uppsala University

I am Evan Goss and I work as part of the Baltic University Programme (BUP) Coordinating Secretariat team which is based at Uppsala University in Sweden. I have degrees in geography and regional studies. I have a varied profile in my daily activities, however, am currently involved in two key projects- one involving Sustainability and one involving Quality Assurance. These have involved preparing project applications, working with different university partners and adapting my knowledge. My daily activities are therefore based around communication with partners, project management and fulfilling tasks in various work packages.
