

RESILIENCE OF EDUCATION: SUSTAINABILITY AND COOPERATION FOR UKRAINIAN UNIVERSITIES

This international project is supported by a grant from the Swedish Institute within the framework of SI program "Academic collaboration in the Baltic Sea region".

RESCUU PROJECT INFORMATION

Implementation period: January 2023 – June 2024

The RESCUU project is aimed at contributing to the resilience of wartime Ukraine's educational institutions and will support Ukrainian teachers, students and researchers who remain in Ukraine and work or study at Ukrainian universities. The goal of the project is to help colleagues and students to be prepared to take an active role in post-war reconstruction. The project activities are open for the students and teachers at all BUP participating universities in Ukraine.

This project will provide several events, both online and physical, aimed at the target groups mentioned above. The content of the events will be focused on knowledge and experiences needed to overcome the consequences of the war, as well as problems of sustainability in connection to the war in terms of social life, environment etc. By participating in international events within the framework of the project, teachers and students will establish contacts for collaboration with universities in the Baltic Sea Region.

PROJECT PARTNERS

Leading partner: Baltic University Programme Coordinating Secretariat at Uppsala University, Uppsala, Sweden. [Lyudmyla Babak \(project coordinator\)](#), [Pontus Ambros](#), [Evan Goss](#).

Uppsala University/Unit for Academic Teaching and Learning, Uppsala, Sweden.
[Suzanne Pathkiller](#), [Mats Cullhed](#), [Geir Gunnlaugsson](#)

The National Technical University of Ukraine 'Igor Sikorsky Kyiv Polytechnic Institute', Kyiv, Ukraine. [Vadym Kondratiuk](#), [Serhii Horbachyk](#), [Liudmyla Vlasiuk](#).

The National University Kyiv-Mohyla Academy, Kyiv, Ukraine.
[Victor Karamushka](#), [Olena Masliukivska](#), [Svitlana Boychenko](#).

Poznan University of Technology, Poznan, Poland.
[Magdalena Zawirska-Wolniewicz](#), [Marlena Kucz](#), [Olga Vakhrina](#).

Associated partner: Baltic University Programme Associated Secretariat at Åbo Akademi University, Åbo, Finland. [Cecilia Lundberg](#)

All project partners are participating in the Baltic University Programme (BUP).

RESILIENCE OF EDUCATION: SUSTAINABILITY AND COOPERATION FOR UKRAINIAN UNIVERSITIES

This international project is supported by a grant from the Swedish Institute within the framework of SI program "Academic collaboration in the Baltic Sea region".

PROJECT EVENTS

1: Training courses for university teachers

- + "Designing and Delivering Distance and Blended Teaching and Learning for teaching staff in Ukraine"
- + "Introduction to ESD – Education for Sustainable Development"
- + The BUP Teachers course on Education for Sustainable Development

Teachers will master the skills in supervising active online learning and intercultural dialogue and learn the methods of teaching sustainable development to their students, including the methods of revising their curricula so it can be taught from a sustainable development perspective.

2: International cooperation boot camps for university students and young researchers

- + Boot Camp for International Cooperation in Research and Innovation
- + Boot Camp for International Cooperation in Entrepreneurship for Sustainable development

The participants will learn about the opportunities provided by international cooperation in research, innovation and entrepreneurship, the benefits of participation in EU funding and mobility programs, and gain experience in project design through guided practice with foreign experts.

3: Strengthening research cooperation

- + Initial Workshop
- + Internship of Ukrainian researchers at Swedish or/ and Polish Universities
- + Workshop "Research Cooperation Against Consequences of the War"

Ukrainian researchers will get acquainted with and apply the newest techniques and research methodology in areas important for Ukraine in the context of overcoming the consequences of the war and achieving Sustainable Development Goals 2030.

4: Students' Conference "Challenges of Sustainable Development in the Baltic Sea Region because of the war in Ukraine" .

Students will receive new knowledge in the conference topics, establish international contacts and develop soft skills for future cooperation.
